PROJECTS

Daily Digest (API Based News Webapp) || ReactJs , Node.js , Tailwind-CSS, MongoDB, ExpressJs
- A Daily Digest is a real-time news web-app. Where users can update with the latest news and also it serves news from more than 10+ Countries.

StudyNotion || ReactJs , Node.js , Tailwind-CSS, MongoDB, ExpressJs,Redux
- A MERN stack edtech project facilitates seamless learning experiences by integrating MongoDB, Express.js, React.js, and Node.js. It offers features such as user authentication, course management, interactive content delivery, and progress tracking. Leveraging modern web technologies, it enhances educational accessibility and engagement for students and instructors.

Career Hub || ReactJs , Node.js , Tailwind-CSS, MongoDB, ExpressJs,Redux
- Career Hub is a dynamic job portal web application created using the MERN stack (MongoDB, Express.js, React, and Node.js). Designed to streamline the job search process, Career Hub offers a user-friendly interface for job seekers to explore opportunities and for recruiters to post job listings. The platform provides advanced search filters, seamless application submissions . With secure user authentication and an intuitive dashboard, Career Hub ensures a smooth and efficient job-hunting experience. Its robust backend and responsive design make it a reliable and accessible tool for connecting talent with the right employers.

EXPERIENCE

The Special Character   **May 2024 − June 2024**
FUll-stack Developer   *Ahmedabad,India*

- As a **Full Stack Developer intern**, I contributed to the development and enhancement of both **front-end** and **back-end** components of web applications. I developed a Career Hub from scratch, primarily focusing on **back-end** development and creating the entire **backend infrastructure**.

CERTIFICATIONS

- Got certified from **NPTEL** in Python Programming with Data Science
