Experience

Ywork.ai **May 2025 – Present**
Full-stack Developer *Gandhinagar, India*

- Collaborate and optimized the core **Ywork** platform using **Next.js** and **Redux**, developing complex and responsive user interfaces with smooth state transitions.
- Implemented **real-time functionalities** using **WebSockets** to deliver live updates and enhance user interactivity.
- Collaborated closely with the backend team to integrate REST APIs, ensuring seamless data consistency and optimized client-server communication.
- Contributed to **performance tuning, bug fixes, and UI optimization**, improving scalability and user experience across devices.

Tatvasoft **Jan 2025 – April 2025**
Full-Stack Developer Intern *Ahmedabad, India*

- Developed a full-featured web application called **PizzaShop**, building the entire backend infrastructure using **ASP.NET MVC**, **Entity Framework**, and **PostgreSQL**.
- Engineered robust APIs and implemented JWT-based authentication to secure access to user and admin portals.
- Designed and integrated dynamic frontend interfaces using **Razor Views**, **jQuery**, and **AJAX**, supporting seamless interactions like live sorting, pagination, and modals.
- Implemented N-Tier architecture, clean code principles, and reusable components to ensure scalability and maintainability.

PROJECTS

Career Hub – Job Portal || ReactJS, NodeJS, ExpressJS, MongoDB, Tailwind CSS, Redux

- A MERN stack job portal that streamlines the hiring process with features like secure authentication, recruiter dashboards, job listings, advanced filters, and application submissions, built with a responsive UI and robust backend.

StudyNotion – EdTech Platform || ReactJS, NodeJS, ExpressJS, MongoDB, Tailwind CSS, Redux

- A full-stack edtech platform enabling course creation, interactive content delivery, progress tracking, and user authentication, enhancing learning experiences for students and instructors.

Pizzashop–Restaurant Management System || ASP.NET MVC, PostgreSQL, jQuery, AJAX

- A complete restaurant management system with features like JWT-based authentication, cart and modifier handling, smart waiting list with floor-wise tokens, and dynamic UI interactions using jQuery and AJAX, built on a clean N-Tier architecture.
